Water Sample Result Remark :- water is Potable

**Note:-** 1. Not to be produced at Court of Law.

2. We do not take any responsibility in test result due to wrong collection of sample .

3. The figures indicated under column "Acceptable" "In the table" given above are the limit up to which the water is generally acceptable to the consumer. Figures in excess of those mentioned under "Acceptable" render the water not acceptable in the absence of alternative and batter source but up to the limit under "column" case of rejection above beyond which the supply will have to be rejected.

**Caution :-** The chemical and physical properties of the water change drastically with respect to time therefore ensure that sample reaches the laboratry with in the prescribe time limit of 72 Hrs. for potable water .The minimum quantity of the sample required for such test is 2.00Liters for Bacteriological test the Max prescribe time limit of 30 Min. in case where it is not possible the sample bottle must be kept in ice. for such testes sterlised bottle must be used and these should be filled up to their 2/3 height
